Strength, durability and good looks come as standard with Rockstone

The distinguishing feature is its unique wall finish which is durable and blends beautifully with virtually every type of property and environment. It's a stylish addition to any property and it's constructed with steel reinforced concrete posts and panels for lasting strength. There's a wide range of optional accessories to personalise your garage and add to its usefulness. To harmonise with your house, paint the exterior elevations, choose from up to 90 different up and over door styles and finishes or choose from four different coloured fibre cement roof sheets – the choice is yours.

Sizes:

Apex Rockstone

(See page 42 for full details)

Standard price includes:

- ✓ Compton delivery and installation, programmed and controlled by the company to ensure the highest standards
- ✓ 10 year structural guarantee, giving you peace of mind
- ✓ The Compton Customer Care Promise – we promise to make you happy with your building – no small print!
- ✓ Compton Customer Service – rest assured with the best in the industry
- ✓ Sand and cement fillet to internal perimeter walls to help prevent leaks
- ✓ Pre-finished, white polyester powder coat primed galvanised steel up and over door, fully retractable, ready for painting
- ✓ Unlike most other garage manufacturers, with Compton, the wider the garage, the wider the door, giving easier access and maximising available space, and at no extra charge
- ✓ Stone effect external finished concrete post and panels, machine vibrated with steel reinforcement, mastic sealed with rugged good looks to blend with natural stone buildings
- ✓ Galvanised steel bolts and nuts, 1/3 thicker than most competitors for longer life, greater strength and stability
- ✓ 12.5° pitched roof, fibre cement roof sheets, 125mm (5") profile, fastened to steel roof purlins using galvanised steel roof bolts for longer life
- ✓ Close fitting fibre cement ridges, minimising condensation. Most other manufacturers use a flat steel capping with a potential condensation risk
- ✓ Steel roof trusses for increased strength, factory primed
- ✓ Steel purlins, bolted to the roof trusses for extra strength and rigidity, factory primed
- ✓ Preservative treated timber framed and clad front and rear fascias and bargeboards
- ✓ Preservative treated fixed timber window
- ✓ Hardwood timber weather bar, bedded on mastic and screwed to the concrete base behind the main door – helps prevent water and leaves blowing under the door

NEW NEW

Black PVCu gutters to both sides, with downpipe and shoe on each side
Eaves filler to both sides
